Code Red
"A Crimson Sky"

(graham/cohen)

Phil:
If I could talk to you
If I could tell you all the things
Goin' on in my mind
If I could hold you near
Kiss away your tears I would
But I'm left here on my own

Roger:
Said you had to go
Said you didn't know
Oh oh oh...

Chorus:
A crimson sky floats above the sea
I'm standing here alone
I'll wait until you're back with me
High above the clouds
Your 747 taking you away from me

Lee:
If I could hold your hand
If I could wrap you in my arms
Make the pain go away

If I could be with you
You know that it's true
I would
But I'm left here on my own

Roger:
You said you won't be long
Said we must be strong
Oh oh oh...

A crimson sky floats above the sea
The sun goes down on me
All that's left is a memory
High above the clouds
The emptiness you feel

Is tearing at the heart of me

Roger:
Said you had to go
Said you didn't know...oh oh...

Repeat chorus
