Forget your troubles just for tonight,  
Leave them at the door,  
Out of mind, out of sight,  
If you've got a problem, we can work it out,  
We're gonna have a good time, no doubt...

No matter how bad you think things are,  
There's always a way out,  
Even if you can't see it right now,  
You will later when we have no doubts,

Don't you know it's time for jammin',  
Let us see you dancin', everybody raise your hands,  
Don't you let us catch you lounging,  
Yeah, you should be swinging,  
Everybody raise your hands...

Are you with me? are you feeling better yet?  
Bet you can't even remember  
What it was that made you sweat,  
Now you see what I'm saying,  
Now you know what I mean,  
Won't be long now, but for now I'm gonna  
Make you scream...

No matter how bad you think things are,  
There's always a way out,  
Even if you can't see it right now,  
You will later when we have no doubts,  
Don't you know it's time for jammin'  
You know you got my moneys all buzzin', babe,  
Just thinking about your lovin, babe,  
(just thinking about your lovin, babe)  
Girl, I can't seem to get you of my mind,  
Got thoughts workin overtime,  
(got my thoughts working overtime)  
You feed me the love my soul needs to survive,  
All I need right now, babe...

Just a little more time with you,  
Wanna make love with you,  
You'll never know just how I feel,

Till I show this love's for real,  
Just a little more time with you,  
Let me get you in the mood,  
Cos I'll leave you in no doubt,  
That it's me you can't do without,  
Just a little more time without you...

What we've got is sweet as honey, babe,  
We don't need nothin' babe,  
(we don't need we don't need nothin, babe)  
I take the blame for what you've been going thru,

For being such a fool to you,  
(I know I've been such a fool to you)  
Sometimes as a man, we all make the same mistakes,  
I just hope it's not too late...

Just a little more time with you,  
Wanna make love with you,  
You'll never know just how I feel,  
Till I show this love's for real,  
Just a little more time with you,  
Let me get you in the mood,  
Cos I'll leave you in no doubt,  
That it's me you can't do without,  
Just a little more time without you...

You're the only thing that I've ever craved,  
Only thing, only thing,  
So I'm asking you,  
Please don't take it away,  
Not this time,  
Tell mewhat to do to prove my love for you,  
Gonna prove my love to you, babe,  
Even if you asked me to fly,  
I would fly...

Just a little more time with you,  
Wanna make love with you,  
You'll never know just how I feel,  
Till I show this love's for real,  
Just a little more time with you,  
Let me get you in the mood,  
Cos I'll leave you in no doubt,  
That it's me you can't do without,  
Just a little more time without you...

Let us see you dancin', everybody raise your hands,  
Don't you let us catch you lounging,  
Yeah, you should be swinging,  
Everybody raise your hands...

This is how we rock, this is how we roll,  
Everybody raise your hands,  
This is how we rock, this is how we roll,  
Everybody raise your hands...

Don't you know it's time for jammin',  
Let us see you dancin', everybody raise your hands,  
Don't you let us catch you lounging,  
Yeah, you should be swinging,  
Everybody raise your hands...
