'Cause I only wanna have fun  
That's why that I'm having this song  
So why should I not be really free and be me

You know my parents are gone  
And all my lessons are done  
Now is the time to let it show  
(Ready to go)

Sing this happy song to celebrate  
The [unverified] party everybody  
Come and sing along  
Let's sing this song happy together forever  
Come and sing along  
Let's sing this song happy together forever

We go after the floor  
The crowd is shouting for more  
We re dancing on the clouds  
And in the air we don't care

We only live for tonight  
So everything is alright  
It makes you get up  
And your body move  
(Give me the groove)

Well, I can see in your eyes  
That you're not into lies  
It's getting late  
(It's getting late)  
But we must wait

The party is over the clock  
We hope that we'll never stop  
We are doing nothing but the best we can  
(Sing it again)

Sing this happy song to celebrate  
The [unverified] party everybody  
Come and sing along  
Let's sing this song happy together forever

Come and sing along  
Let's sing this song happy together forever

'Cause I only wanna have fun
