I didn't know it I was too blind to see
Today you walked out of my life
So tell me why did you decide you had to go
You didn't call or even try to let me know
Where you are is it far

CHORUS:

It's not right it's not fair
How could you leave me on my own
it's not right it's not fair
This love we had was strong
It's not right for you leave
It's not right to leave me here
It's not right and baby it's not fair
Is it over is it really the end
Cause I don't understand what I could have done
You could have said
You should have made me realise

It's so easy for you just to take the time
Tell me why tell me why

CHORUS

Could it be that I loved on my own
Cause I don't understand
I thought our house was our home
If you say that you love
Then you say you're not sure
Then you say that you don't
Then tell me when
Then tell me why
Then tell me how
CHORUS
