(graham/cohen)

Roger:

I've been alone - sat by the phone

A time in my life - I'd prefer to forget it if I could

Those memories are leaving me

Now all my days are a dream and the dream is for real

Chorus:

I wanna be part of you

Share my soul with you

My life began the day you walked in the door

I wanna be part of you

Cos you're part of me

A love to last

I wanna be part of you

Lee:

I used to cry not knowing why

A time in my life - I'd prefer to forget it if I could

I lived in hope trying to cope

Now all my days are a dream and the dream is for real

Repeat chorus

Phil:

And when I look in your eyes

I'm a thousand feet high

And there's no reason why

With a love so strong

We can't carry on for all time

Repeat chorus
