Ain't no cloud in my sky,  
Got no reason to cry,  
Now there's you in my life,  
(now that there is you in my life)  
And the smell of your perfume,  
I can't get it out of my mind,  
(can't get you out of my mind)  
Cause when we're together,  
The feeling's so right,  
So right girl, and you know that...

I like the way you soothe me, I like it,  
I like the way you make love feel,  
I can't explain it's so unreal,  
One kiss from you, it moves me (I like it),  
Takes me to a different world,  
I'm so glad I found you girls,  
I like the way you soothe me,

As I work, my mind drifts,  
Cause I'm dreaming of you by my side,  
(thinkin' of you all of the time)  
The time goes so slowly  
And I feel so lonely  
When we're apart, (we're apart)  
Just can't wait to be with you,  
Cause your love is so right, girl,  
All I'm thinking is...

I like the way you soothe me, I like it,

I like the way you make love feel,  
I can't explain it's so unreal,  
One kiss from you, it moves me and I like it,  
It takes me to a different world,

I like the way you soothe me, I like it,  
I like the way you make love feel,  
I can't explain it's so unreal,

I know sometimes, it can be hard,  
I know love is not easy,

And I thank you for the love you give me,  
And promise that forever, I will love nobody but you,  
girl...

I like the way you soothe me, I like it,  
I like the way you make love feel,  
I can't explain it's so unreal,  
One kiss from you, it moves me and I like it,  
It takes me to a different world,  
I'm so glad I found you girl,  
I like the way you soothe me, I like it,  
I like the way you make love feel,  
I can't explain it's so unreal,  
One kiss from you, it moves me and I like it,  
It takes me to a different world,  
I'm so glad I found you girl...
