You so beautiful divine
Everything are just so fine
And with the love like yours
There is no pain in this world
That I can endure
So beautiful
So wonderful
And as we flow on the floor
I hear the music of love
This is our song (Uh . . .)
This is the song we'll remember forever and ever
It means to you
What it means to me
So from this moment on
We know
This is our song
Our song
Mmmm
Anytime I feel alone
I put on our favorite song
And like the music and words
We merge into one
And play on and on
Love so beautiful
Unconditional
Can't find the words to explain
This is our song and our song says it all
This is our song
This is the song we'll remember forever and ever

It means to you
What is mean to me
So from this moment on
We know
When my skies are gray
Make them clear again
When I'm weak you are strong
I need to hear the sound
You need to hear the words
This is how we all began
This is our song
This is the song we'll remember forever and ever

It means to you
What it means to me
So from this moment on
We know
This is our song
This is the song we'll remember forever and ever
It means to you
What is mean to me
So from this moment on
This is our song
This is our song
So forever and ever
Just how you know (just how)
We know
We know
We both know
This is our song
Song
