Are you trying to heal a broken heart
Operating in the dark
Let me be the light you need to get there
I know one day the end will come
I am scared cause you're the one
Don't you know my love ain't going no where

Cause it ends with you, with you girl
It all ends with you, with you
It started with I
Then the L
O-V-E came over me
And it ends with you, with you
This love story ends with you

I know that he's been on your mind
Moving on it takes some time
Don't try to make it right, if it's wrong
If you open up your heart to me
You'll see I'm real girl
1-4-3
Until then, imam write you this love song

Cause it ends with you, with you girl
It all ends with you, with you
It started with I
Then the L
O-V-E came over me
And it ends with you, with you
This love story ends with

You could take your time girl, yeah
But you could never waste mine, oh no
I go through the most stress
All week cause i know it
Its all said and done
It ends with you
Ohh, girl, woah

It all ends with you, with you
It started with I
Then the L

O-V-E came over me
And it ends with you, with you
This love story ends with you
