It's my time, it's my life,
I can do what I like
For the price of a smile, I gotta take it to right
So I keep living, cause the feel's right

And it's so nice, and I'd do it all again
This time, it's forever
It gets better, and I I, I like how it feels

I like how it feels, I like how it feels
I like how it feels, I like how it feels
I like how it feels, I like how it feels

So just turn it up, let me go
I'm alive, yes and no, never stop
Give me more, more, more
Cause I like how it feels
Ooh yeah, I like how it feels
You know I like how it feels
Oh yeah I like how it feels

Should we love, makes us won
Let's make a beautiful world
Take my hand, it's alright
Cuz tonight, we can fly

So we keep living, cause the feel's right
And it's so nice, and I'd do it all again
This time, it's forever
It gets better, and I I, I like how it feels

I like how it feels, I like how it feels
I like how it feels, I like how it feels
I like how it feels, I like how it feels

So just turn it up, let me go
I'm alive, yes and no, never stop
Give me more, more, more
Cause I like how it feels
Ooh yeah, I like how it feels
You know I like how it feels

Oh yeah I like how it feels

[Pitbull]Will ya consider the best, I consider me the
okra

I want my bank account like carlos slim's, or at least
mini oprah

Baby just close your eyes,

and imagine any part in the world, i've been there

I'm like global warming, anything I just start to heat
the things up, but I've been here

Time traveller, two time zones, give me some of my
vodka any zone,

Enrique Iglesias, and translation, Enrique Churches,
confession

Dale mamita, dimelo todo, alante tu hombre, yo me
hago el bobo

No te preocupes, baby for real

Because you gon like how it feels

Cause I like how it feels

Ooh yeah, I like how it feels

You know I like how it feels

Oh yeah I like how it feels

I like how it feels...

I like how it feels
