With the worries that i'd give her and she told the worst
of me
My wanting just to hold her neck in my arms and feel
me squeeze
No i'm not going to give you what you want so if you
please
The sin that shapes your voice carries, my ears, this
new disease

Did somebody take your tongue?
In worries of the words that you couldn't say, that you
could've saved them from
But i don't want to sleep without,so i bid to you,
goodnight,
Tonight, sleep tight, my love

The anxious through the calming storm, you'll sit as
you pray for rain
I'll touch it if you ask me to but how it's up to you.
No i'm not going to let you get up if you struggle
willingly.

I'll savor all your form to show you how and it's been
done to me.
Did somebody take your tongue?
In worries of the words that you couldn't say, if you
could of saved them from
But i don't want to sleep without, so i bid to you,
goodnight,
Tonight, sleep tight, my love
With all the words you say
You save
You save
You were so well behaved
As you watched them made your way
A kiss for your engraved
You shift then you stretch your legs
You were so well behaved
You were so well...
Who taught these tricks that make...you were so well
behaved

If the world stops turning girl you better not stop when i
say
And there was nothing you could do to stop it,why'd
you try?
If the ground starts parting through the silence as you
woke up the dead
Everything here dies alone...

But i'm not quite sure what you've been told...on labor
day
Ooh, i'm not starting with you but the faint of heart
Were worries way
But i'm not quite sure what this unfolds...on labor day
Ooh, i'm not starting with you but the faint of heart

Did somebody take your tongue?
In worries of the words that you couldn't say, that you
could've saved them from
But i don't want to sleep without, so i bid to you,
goodnight,
Tonight, sleep tight, my love

Did somebody take your tongue?
In worries of the words that you couldn't say, that you
wouldn't save them from
But i don't want to sleep without so i bid to you,
goodnight,
Tonight, sleep tight, my love
