Elf Tower, New Mexico... Ohh...
Elf Tower, New Mexico... Ohh...

Well thank God, you're still angry at me.
Well I've got a better chance seeing you dead and
buried, yeah.
Thank you for this one last big mistake.

It's your turn; come shoot for it.
If you win, well, you can lead the way!
Yeah!

Middays are gray into New Jersey.
Did you think maybe I was doing quite well without you
in the frame?

Stay...
Killed in defense.
(Ohh... Oh...)
Caught with a cold you run after her...
"I'm giving you up, go on and find someone new!"
Till then pretend.
You touched me for your last! Ohh!
"I'm giving you up, go on and find someone new!"

Dear Nikki, what... (Dear Nikki, what...)
What if I could have found a better half here, in you?
Well I merely came here and...

Elf Tower... New Mexico...
Elf Tower, New Mexico...

Stay here in our last standing hourglass circumstance.
Devoted here to the midst of the weary eyes.
Lost and buried here in your big surprise in the ground.

"Will your fingers find my back familiar?"
Fit in the questions that I had to ask.
Did you think maybe I was doing quite well without you
in the frame?

Stay...

Killed in defense.
(Ohh... Oh...)
Caught with a cold you run after her...
"I'm giving you up, go on and find someone new!"
Till then pretend.
You touched me for your last! Ohh!

"I'm giving you up, go on and find someone new!"

Dear Nikki, what... (Dear Nikki, what...)
What if I could have found a better half here, in you?
Well I merely came here and...

Elf Tower, New Mexico...

I'll smile tonight; you are home...

I'll grant my words in one lesson.

Dear God,
Before I heard this is your intention, for I...
I could've figured out, over and over.

See, there's Coheed, and then Cambria, in innocent
merger.
Absence makes the heart grow fonder.

Thank God, they recovered your BODY in New Mexico.
Three days in spoiled love.
I miss you in every way.
You could have been dear.
I wish you were here, still... in the frame...

Stay...
Killed in defense.
Caught with a cold you run after her...
"I'm giving you up, go on and find someone new!"
Till then pretend.
You touched me for your last! Ohh!
"I'm giving you up, go on and find someone new!"

Dear Nikki, what...
What if I could have found a better half here, in you?
Well I merely came here and...

Elf Tower, New Mexico...
