So draw little piggy better watch out for number one.
(I think fear a bad wind blowing today)
You better put up your shudders cause Lord knows
Now I ain't stopping till the worst gets
Alive little story don't you creep out that fuckin rut.
(It's best that you don't go walking through there)
Now who's the "don't bother knocking?"
Cause god knows I am not stopping till you breathe
none.

(Hey)
What I miss are one and the same.

Just give it the push while I kick start
(There's just no time for this)
Come on, it's just the hurt I'm looking for
Don't wanna live no more
You've got the gun, I've got the bullets
Don't wanna live no more
Well baby, be my lover
Go on and pull that trigger!

You're the sin of the city, now repent for the wrong
you've done
(Not sorry for this, not sorry at all)
You're a snake under cover
The wolf of another, just this bad motherfucker
Leave a long trail of nothing, little bad boy, your gun in
hand.
(Its best that you don't go walking through there)
Now who's the calm boy your popping?
Cause god knows I am not stopping till you breathe
none.

(Hey)
What I miss are one and the same.

Just give it the push while I kick start
(There's just no time for this)
Come on, it's just the hurt I'm looking for
Don't wanna live no more
You've got the gun, I've got the bullets

Don't wanna live no more
Well baby, be my lover
Go on and pull that trigger!

GOD "Oh Christ Will You Bury My Body?"
IS NOT "Oh Christ Will You Bury My Body?"
HERE! "Oh Christ Will You Bury My Body?"
We'll keep marching to the top of this tower
As God isn't at home. No.
There's nothing in the way that could stop us
It's your time to go.

(Hey)
What I miss are one and the same.

Just give it the push while I kick start
(There's just no time for this)
Come on, it's just the hurt I'm looking for
(Don't wanna live no more)
You've got the gun, I've got the bullets
Don't wanna live no more
Well baby, be my lover
Go on and pull that trigger!

(I don't wanna live no more)
Go on and pull that trigger!
(Wanna live no more)
My Lover go on and pull that trigger!
