Keep your secrets in the dark
Nothing matters anymore
Body's breaking, drive me crazy
This is not your place
No, this is not your playground, it's my heart

We were stupid, we got caught
But nothing matters anymore
So what? Here we are, juggernaut

Courage broken, lashed to scars
Can this love be what I want?
Body's breaking, driving me crazy
It's your fault

We were stupid, we got caught
But nothing matters anymore
So what? Here we are, juggernaut, juggernaut
So let's hang us a hangman
We'll bury our burdens in blood
So let's hang us a hangman
We'll bury our burdens in blood
Become stronger juggernaut

Answer me
Did we take this too far?
You've given all I could need
Did we take this too far?

Oh, but your kiss won't leave me be
Did we take this too far?
'Cause your teeth just won't stop
Chewing out my heart

We were stupid, we got caught
But nothing matters anymore
So what? Here we are, juggernaut
Here we are, juggernaut
We are, juggernaut
