In our days we formed insingias  
The passing glands unstamped  
We've rendered ourselves powerless, fortunate  
The useless mend the fixed  
And on every hour it detonates  
My courage goes unlooked  
The ride home through perilous  
The land it goes, I will  
You've been a bad boy  
You broke all the rules  
You've been a bad boy  
You'll get yours paid in full  
I, robot will never die  
My robot will never die  
You look down and far from out  
And the paper read "you lose"  
I, robot will never kill  
A favor captain, a word with you  
My systems gone and lost its mind  
My right eye has done shed a tear  
My gun I've left behind  
Systems take me home and dissemble me  
Will I be terminated with you near?  
Longs at the others that I hold so close  
Thought to be killed, then when? by who?  
You've been a bad boy  
You broke all the rules  
You've been a bad boy  
You'll get yours paid in full  
I, robot will never die  
My robot will never die  
You look down and far from out  
And the paper reads "you lose"  
I, robot will never die
