These are the days, the end complete.  
Oh, we're still turning to the sound of the suffering.  
You are the jury, we are the saints.

Our minds divide, the past repeats.  
A worst still brewing in the hearts of those weak ones  
bleed.  
I am the knowing, the living dead.

Dig deeper.  
Remember all you've been and all you've left behind.  
Wave goodbye, my dear.  
Dig deeper.  
Remember all you've been and all you've left behind.  
Welcome home, my dear.

No words to say, the worst displayed.  
What once was courage has now cursed in the wars  
we've made.  
We are the sinners before our graves.

Now leave in peace, the dead unsafe.  
Oh, we're still turning down the path of the end  
complete.  
Now smite me, jury, we've come for change.

Dig deeper.  
Remember all you've been and all you've left behind.  
Wave goodbye, my dear.  
Dig deeper.  
Remember all you've been and all you've left behind.  
Welcome home, my dear.

Mama, I'm living proof that neighbor is just around the  
corner.  
A ghost to walk the end designed for you and I.

We are the fate of Heaven  
The call of Justice  
We are now waiting while you wish us away  
With your plans in all deliverance  
Won't take us over, baby

GOD, He will not save you  
IS NOT, He will not save you  
HERE! He will not save you from this

GOD, He will not save you  
IS NOT, He will not save you  
HERE! He will not save you from this

You've been stealing my lines,  
Now go on living your lies,  
For on your knees you will find,  
You'll face a jury in hell.

We are the fate of Heaven  
The call of Justice  
We are now waiting while you wish us away  
With your plans in all deliverance  
Won't take us over, baby

GOD, He will not save you  
IS NOT, He will not save you  
HERE! He will not save you from this

GOD, He will not save you  
IS NOT, He will not save you  
HERE! He will not save you from this

You've been stealing my lines,  
Now go on living your lies,  
For on your knees you will find,  
You'll face a jury in hell.

These are the days, the end complete.  
The world was burning to the sound of the suffering.  
You are the jury, we are the saints.

Dig deeper.  
Remember all you've been and all you've left behind.  
Wave goodbye, my dear.  
Dig deeper.  
Remember all you've been and all you've left behind.  
Welcome home, my dear.

You were the magic that turned a curse in time.  
You were the beauty that we had to leave behind.  
Oh, no. No, no. Bye-bye.

We're going to get you, my love.  
We're going to get you, my love.

Oh, no. Let your rabbit go run.  
Oh, no. Let your rabbit go run.

We're going to get you, my love.  
We're going to get you, my love.

Oh, no. Let your rabbit go run.  
Oh, no. Let your rabbit go run.

We're going to get you...
