

## Coheed & Cambria "Key Entity Extraction III: Vic The Butcher"

Visit "[Key Entity Extraction III: Vic The Butcher](#)" on MotoLyrics.com

You made this harder than it had to be  
The absolute marker, patching into me  
You flashed your colors at me, quite prematurely  
Now I know what you're up to and it feels so good  
It's right

We've got your number  
We can reset the system screen  
Hang your secrets, hang em' up, hang em' up now  
These filthy pleasantries and  
The march of little children  
Hang your secrets, hang em' up, hang em' up now

The truth will cut you down to pieces  
One eight four, lets burn it down  
If I can't keep from living with this regret  
You need to change the way I feel about us

I listened to them chuckle as they eat  
Their judge is hiding behind eyes and turning cheeks  
You think I care for all these phony pleasantries  
When I want nothing to do with, I want nothing to do  
with your life

We've got your number  
We can reset the system screen  
Hang your secrets, hang em' up, hang em' up now  
These filthy pleasantries and  
The march of little children  
Hang your secrets, hang em' up, hang em' up now

The truth will cut you down to pieces  
One eighty four, lets burn it down  
If I can't keep from living with this regret  
You need to change the way I feel about us

(Bye, bye, bye! ) (x2)

Maybe I'm bad company  
If you don't have a mark  
You're the prettiest thing I have ever seen  
Come with me, I want to make you dirty

One eighty four, let's burn it down  
I need to change the way I bleed

Hang your secrets, hang em' up, hang em' up now  
X9
