These are the days. The end complete.
A world still turning to the sound of the suffering.
You are the jury, we are the saints.

Our minds divide, the past repeats.
A war still brewing in the hearts of those we once bled.
I am the knowing, the living dead.

Dig deeper.
Remember all you've been and all you've left behind.
Wave goodbye, my dear.
Dig deeper.
Remember all you've been and all you've left behind.
Welcome home, my dear.

No words to say.
The worst displayed.
What once was courage is now cursed in the hurt we've
made.
We are the sinners, before our graves.

Now leave in peace.
The dead unsaved.
A World still turning down the path of the end
complete.
Now spite me, jury, We've come for change.

Dig deeper.
Remember all you've been and all you've left behind.
Wave goodbye, my dear.
Dig deeper.
Remember all you've been and all you've left behind.
Welcome home, my dear.

Mama, I'm living proof that never is just around the
corner.
A ghost to walk the end designed for you and I.

No one will ever know.
No one will ever know.
[We are the fate of Heaven
The call of Justice

We are now waiting while you wish us away
With your plans in all deliverance
Won't take us over, baby
GOD, (He will not save you)
IS NOT, (He will not save you)
HERE! (He will not save you from this)

GOD, (He will not save you)
IS NOT, (He will not save you)
HERE! (He will not save you from this)

You've been stealing my lines.
Now go on living your lies
For on your knees you will find
You'll face a jury in Hell.] [x2]

Those were the days.
The end complete.
The world is burning to the sound of the suffering.
You are the jury, we are the saints.

Dig deeper.
Remember all you've been and all you've left behind.
Wave goodbye, my dear.
Dig deeper.
Remember all you've been and all you've left behind.
Welcome home, my dear.

You were the magic that turned a curse in time.
You were the beauty that we had to leave behind.
Oh, no. No, no. Bye-bye.

We're going to get you, my love.
We're going to get you, my love.

Oh, no. Let your rabbit go run.
Oh, no. Let your rabbit go run.

We're going to get you, my love.
We're going to get you, my love.

Oh, no. Let your rabbit go run.
Oh, no. Let your rabbit go run.

We're going to get you...
