I believe in the world right in front of me
But now, along these empty streets
Where this curse holds these memories of a man
You know he's lost

No time to think about it
No room to breathe

If I had a way back, I'd ride through the dark and the
door
(But please don't wait for me)
Because the man you love don't live anymore
I can't go home again

Tonight you'll sleep
You'll feel what might become of me, my dear
Within these end old days where this longing turns
This man to pray and a love begins to die

No time to live in the deep, girl
I'm worth the second chance
(What have I done?)
No time to think about it
No room to breathe

If I had a way back, I'd ride through the dark and the
door
(But please don't wait)
Because the man you love don't live anymore
I can't go home again

I believed in the world, once in front of me
Well, now that's gone

If I had the way back, I'd ride through the dark and the
door
(But please don't wait for me)
Because the man you love don't live anymore
I can't go home again

Bye, goodbye
Bye, my dear
