I'm gonna ride this plane
Out of your life again
I wish that I could stay
But you argue
More than this I wish
You could have seen my face
In backseat staring out
Of the window

I'll do anything for you
Kill anyone for you
So leave yourself intact
Cause I will be coming back
In the phrase to cut these lips
I love you

The morning will come
In the press of every kiss
With your head upon my chest
Where I will annoy you
With every waking breath
Until you...
Decide to wake up

I've earned through hope and faith
On the curves around your face
That I'm the one you'll hold
Forever
If morning never comes
For either one of us
Then this I pray to you...
Wherever

I'll do anything for you
This story is for you
(Because) I'd do anything for you
(Anything you want me to do for you)
Kill anyone for you
So leave yourself intact
Because I won't be coming back
In a phrase to cut these lips
I loved you

The morning will come
In the press of every kiss
With your head upon my chest
Where I will annoy you
With every waking breath
Until you...
Decide to wake up

The morning will come
In the press of every kiss
With your head upon my chest
Where I will annoy you With every waking breath
Til' you...
Decide to wake up
