### "Stay With Me"

We simply fit together  
Like a piece of apple pie  
I will be vanilla ice cream and I'll sing you lullabies  
I will love you in the moonlight and I'll love in the day,  
always  
I love the time we spend like a watch from an old friend  
I will help you keep your smile  
Promise me you'll stay awhile  
I will come to you in need  
And I'll help you when I can, when I can

Stay with me  
Promise me your never gonna leave  
Stay with me  
Lets try to be the best that we can be  
And take our time

We always joke together  
Laugh til we're rolling on the floor  
I like the way you dance around when your running for  
the door  
I will come to visit you even when we're old and gray,  
always  
I love the way you make me feel  
When your asleep I'll take the wheel  
Make sure to call when you get home when your driving  
on the rode  
I will come to you in need  
And I'll help you when I can, when I can

So, stay with me  
Promise me your never gonna leave  
Stay with me  
Lets try to be the best that we can be  
And take our time

I will come to you in need  
And I'll love you when I can, I'll love you when I can  
I'll come to you in need  
And I'll love you when I can, I'll love you when I can,  
always

Stay with me  
Promise me your never gonna leave  
Stay with me  
Lets try to be the best that we can be  
And take our time
