You've been there for me I know
It ain't been an easy road
I've done things to you
But still you've been true
From here to back then
At times I'm amazed you'll stay
'Cause I've tried to make you break
To make sure it's real
You feel what I feel
And now we're okay
Now my heart is in your trusting hands 'cause
[I realize your love]
You were there to give me what I need when
[I have given up]
Now there's all these things
[I need to say] 'Cause
[I feel in my heart]
'Cause you've been right there
To show you care
And now I can never get enough

Face to face, I've come to say, "I love you"
Ooh, I can't wait 'til I'm the one beside you
This is the day I will commit
To love you my whole life through
Yes, it's only you, and I say I do
Do
Face to face

I knew from the day we met
That you were the one God sent
That you had my heart
Although you fought hard
You had to give in
I messed up enough in life [life]
To know when something feels this right
I've gotta hold on
Keep both of us strong
Let nobody leave
Now my heart is in your trusting hands 'cause
[I realize your love]
I was there to give you what you need when you

[I had given up]
Now there's all these things I need to say that
[I feel in my heart]
Because you've been right here
And that's because I care
And now we can never get enough

Face to face, I've come to say, "I love you"
Ooh, I can't wait 'til I'm the one beside you
This is the day I will commit
To love you my whole life through
Yes it's only you, and I say I do
Do
Face to face

You're what I was waiting for
Everyday I prayed for and now
I love you, I love you
It took some time for me to see
And now you're the best part of me
And I'm grateful, so grateful that we found love
[Yes it's only you, and I say I do]
And I'm gon' be here for you no matter what
[Yes it's only you, and I say I do]
[Face to face]
Baby you're the only girl for me [Baby]
And you're the only boy for me [Yeah]
Nobody else baby...
Nobody else but you... baby
You and me baby
You and me baby, baby, baby
I don't see nobody else but you
I don't see nobody else but you
[Face to face... Yes it's only you, and I say I do...]
Said it's only you... Ooh... Baby... I love you, I love you
