I can't get you out of the sunlight
I can't get you out of the rain
I can't get you back to that one time
'Cause you and me are still recovering

So let's just try to cool it down
The fighting, this feeling of flames
And let's just try to slow it down
We crash when we race

Oh, this is not the way that it should end
It's the way it should begin
It's the way it should begin again

No, I never wanna fall apart
Never wanna break your heart
Never wanna let you break my own

Yes, I know we've said a lot of things
That we probably didn't mean
But it's not too late to take them back

So before you say you're gonna go
I should probably let you know
That I never knew what I had
I never knew what I had

See I look for you in the morning
'Cause that's what my mind always calls
And I can't wait to get to the evening
'Cause that's when I want you the most

So let's just try to cool it down
The fighting, this feeling of flames
And let's just try to slow it down
We crash when we race

Oh, this is not the way that it should end
It's the way it should begin

It's the way it should begin again

No, I never wanna fall apart
Never wanna break your heart
Never wanna let you break my own

Yes, I know we've said a lot of things
That we probably didn't mean
But it's not too late to take them back

So before you say you're gonna go
I should probably let you know
That I never knew what I had
I never knew what I had

But I know it now
I wish I would've known before how good we were
Is it too late to come back?
Or is it really over? If it's really over

But this is not the way that it should end
It's the way it should begin
It's the way it should begin again

No, I never wanna fall apart
Never wanna break your heart
Never wanna let you break my own

Yes, I know we've said a lot of things
That we probably didn't mean
But it's not too late to take them back

So before you say you're gonna go
I should probably let you know
That I never knew what I had
I never knew what I had

I never knew what I had
I never knew what I had
I never knew what I had

I never knew what I had
I never knew what I had
I never knew what I had
I never knew what I had
