I am stuck here
In a moment
And I'm trying to pretend
So I'll play this feeling over
And over again
Idle on this memory
Maybe I should wake instead
But I'm on my way to go
Back inside my head

I close my eyes
And try to lie
But when,
When these dreams collide

So I'll put this song on repeat
And I'll make up what comes next
Now I'll lay here day dreaming
On your Chest
We'll I'm stalling to open my eyes
Cause I know it's time for me to leave this bed
But I've decided to fall back inside my head

I close my eyes
And try to lie
But when,
When these dreams Collide

When it all breaks down
If I keep on wasting all my time
All alone in my head
Wish I never thought about it in the end

If I close my eyes
And try to hide
But when,
When these dreams collide
