What if we were made for each other
Born to become best friends and lovers
I want to stay right here
In this moment with you
Over and over and over again

What if this could be a real love
A love, a love, yeah
I don't know what to think
Is this real or just a dream
In my heart is where you'll be
I'll keep waiting till we meet

What if we were made for each other
Born to become best friends and lovers
I want to stay right here
In this moment with you
Over and over and over again

What if this could be a real love
A love, a love, yeah
I write our names down in the sand

Picturing all our plans
I close my eyes and I can see
You, and you ask, "Will you marry me?"

Is it made up in my mind?
Am I crazy just wasting time?
I think this could be love
I'm serious

What if we were made for each other
Born to become best friends and lovers
I want to stay right here
In this moment with you
Over and over and over again

What if this could be a real love
A love, a love, yeah
Boy, you know you really make my heart stop
Stop, stop

Oh, what if this real love
What if this real love
Oh, boy, you make my heart stop
You make my heart stop
