First kiss - when I touched your lips I admit I was
nervous baby,
My friend - the only one that I could share my heart
break with baby,
We rushed too fast into this, only in time will tell
Cause we do not know if love will affect our friendship -
it's a risk though,
It's a risk that I want to take, cause baby you know
That I'll never leave your side cause girl I've realized
that

You've been under my nose, my nose
After everything we've been through,
You've been under my nose, my nose
I can't believe I overlooked you,
Right under my nose my nose
Momma I had you steady searchin,
For something that's been here all along

It was like I was plannin for gold,
When I had a diamond just waiting at home
It took forever to see that you were the match for me
I never saw this coming, no (I love you baby)
Can't stop it's not exactly the truth, I've always been
attracted to you
But I didn't want to ruin what we had, thought of losin
you - it made me sad
We rushed too fast into this, only in time will tell

You've been under my nose, my nose
After everything we've been through,
You've been under my nose, my nose
I can't believe I overlooked you (love you girl)
Right under my nose, my nose
Momma I had you steady searchin,
For something that's been here all along

You've been under my nose, my nose
After everything we've been through,
You've been under my nose, my nose
I can't believe I overlooked you,
Right under my nose, my nose

Why am I out here steady searching,
For something that's been here all along

Girl you know you that you are mine (oohh ohh ohh)
(Woahh baby) I never saw a girl like you
