Testing

Yes all concho whores please report to the Cadillac

Well me and my boys we're lookin for a score
And we know where to find us a couple little whores
And they come down there from Weatherford
Steepleville
They're gettin prettied up while we just chill
And if you don't know the girls that we're talkin about
Listen close and I'll sing it for you loud
They wear them black capri pants
And a shiny concho belt
They all like to have their titties felt
There's only one type of these girls
And one place to find em'
And you don't even have to wine em' and dine em'
So we're headin down to the Cadillac
Find some concho whores and cum on they're back
And if they try to fight hell we'll just choke em' down
While we're drinkin back a shot of Crown

Hell you may think it's kinda funny
Hell you may think it's kinda mean
But in the long run we'll just give em' what they need

So we're headin down to the Cadillac
Find some concho whores and cum on they're back
And if they try to fight hell we'll just choke em' down
While we're drinkin back a shot of Crown
