You justified, I disagree
There is no door, so I don't need a key.
If you cope with pain, you can not fall in love
How can you use'n alarm clock if you can not drop off

I don't know why, I got no clue,
but only one is needed instead of two
There is no doubt, I'm on the blink,
One of this dispensable things.

Dead devils
passed levels
passed by any means

Mean angels

Famous strangers
and all dispensable things

every moment of resistance
innocent offenders, violent victims
you can exercise your right to sue
you can paint it black, I'll paint it blue

what to do with the rain if the desert 's flooded
why the fur coat if you're cold blooded
There is no doubt, I'm on the blink,
One of this dispensable things.
