Hold me tight dont let go  
Forever be yours in this bright new dawn  
Open up your eyes for a big new surprize  
Listen to me now in the bright new dawn  
Fixing whats wrong seeing the people who dont belong  
we will try to hide are dispise but it always comes out  
on the inside.

Corus: Nobody said it was easy together we can help  
change the world. come with me now on this island of  
love running away from all sivilization Open your eyes  
to a bright new dawn

Over all we have done good.  
My heart is beating ever so quickly Dont shade your  
eyes from the bright new dawn
