To my surprise and my delight
I saw a sunrise, I saw sunlight
I am nothing in the dark
And the clouds burst to show daylight

Ooh, and the sun will shine
Yea, on this heart of mine
Ooh, and I realize
Who cannot live without
Ooh, come apart without daylight

On a hill top, on the sky-rise
Like a first born child
On a full day and a full flight
Defeat darkness breaking daylight

Ooh, and the sun will shine
Yea, on this heart of mine
Ooh, and I realize
Who cannot live without
Ooh, come apart without daylight

Slowly breaking through the daylight
Slowly breaking through the daylight
Slowly breaking through the daylight
