Here's an Ode, ah, to deodorant  
It's my thing, ah it's my favourite hygiene  
It keeps me through the day

Another ode, ah to deodorant  
It's my thing, ah it's my favourite hygiene  
It's the confidence I need

It's medicine for the soul  
It's medicine for the mind  
It picks me up and makes me whole  
It makes me feel alright

Here's an Ode, an ode to aerosol  
It's my thing  
Ah, it's my favourite hygiene, it's the confidence I need

It's medicine for the soul  
It's medicine for the mind  
It picks me up and makes me whole

It makes me feel alright

It's okay Oh, would I ever let you down? No way  
Oh, would I ever let you down, okay?  
Oh, would I ever let you down, no way  
Oh, would I ever let you down...

I'll never let ya, I'll never let ya, I'll never let you down,  
no way

Would I ever let you let you down, no way  
Would I ever let you let you down, no way  
Would I ever let you let you down, no way  
Would I ever let you let you down, no way
