They say it gets so hot that you could almost scream  
This world can be so cold that sometimes  
You just don't know how your gonna survive  
Listen baby

Chorus:

I'll always be there for you  
Pick you up when you fall  
You never needed anyone  
You couldn't swallow your pride  
Now your back's to the wall

If you lean on me I will lean on you  
Put your hand in mine we can make it through  
I'll be your backbone girl shelter from the storm  
When it's cold outside I can keep you warm

If you lean on me

The skies get so grey  
You think there's no way the sun will ever shine  
Trouble resting on your mind with nowhere to find  
Listen baby

Chorus

You think you're the only one to get kicked around  
There's been a lot of hearts broken in this dirty old town

If you lean on me

Lean on me  
(x4)

I'll always be there for you  
Pick you up when you fall  
Everybody needs a helping hand  
You've gotta swallow your pride  
Yeah and kick down the wall

If you lean on me I will lean on you  
Put your hand in mine we can make it through  
I'll be your backbone girl shelter from the storm  
When it's cold outside I can keep you warm  
(x2)
