She's as free as a blue horizon  
Im a slave to this gravity  
And every night i hope and pray that she'll come back  
down to me

I keep my eyes on the stars  
I track the heavens above my lonely world  
Im tracking her trajectory  
Shes my baby, she's my little satellite

We met at the lunar hilton  
On a sea of tranquility  
And maybe i was dreamin  
But we was shacked up at the honeymoon suite

She was a wonderful girl  
It was a heavenly night  
But the stars were wrong  
I woke up she was gone  
Like a memory just out of site  
Shes my little satallite
