I Feel Love
I Feel Love
I Feel Love

I never thought this would happen
I thought that love was over for me
Then I saw you girl, I changed you see.
People that I used to run to, I don't see no more
Places that i used to go, have closed the door
Since the first time i kissed you
You're all I've been dreaming of
Can't believe how much I've missed you
I guess it's true because of you
(Chorus)
I feel love, each and every time that you come into view
I feel love, and no i can't explain it all i wanna do
is be with you
I feel love, simply put from the first time your eyes met
mine.
I feel love, and that's never gonna change I'm gonna
love you til the end of time.
I feel love
Long ago I lost true love, I thought that it was the end
for me
Since you walked in my life, it's different you see
Now i feel inside my heart, better then I did back then
You taught me how to feel, and how to love again
Since the first time i kissed you, you're all i've been
dreaming of
Can't believe how much I've missed you
I guess it's true because of you
(Chorus)
I feel love, I feel love
Since the first time i kissed you, you're all i've been
dreaming of
Can't believe how much i've missed you
I guess it's true because of you
(Chorus)
fades out.....
