### "Before i'll give in"

Should I be scared, how do you all fight the thoughts  
about death  
The feeling of emptiness in our hearts do we exist to be  
or go on to a higher place  
Or a lower and not so loved, we can call it hell

When I die will the emptiness eat me like alive  
Will there be a tunnel of light like a sign  
To guide the way to something greater than the mind  
I want some answers fill me in before I'll die

Who's to say how we choose the way we want to go  
Maybe even possible to reborn in different shapes  
it's all a question mark printed in my head  
I have to confess my sins before I'll give in
