

Colony 5 "Colony 5"

Visit "[Colony 5](#)" on MotoLyrics.com

Civil war over the world powerful unions interfere
It's a dangerous situation for us all
Atomic bombs are ready to be launched it's time we
Unite it's time we scan the universe we have to move
on
We have the technology for destruction
Can we use that knowledge to survive
Reverse the process and make something great
Our calling is not to die we have to find a way to survive
We seek colony 5 the time is right
Last chance for mankind to survive
Send a satellite out in space to find the answers
Are we alone can we find an equal place we have to
Move along before it's too late unite lay down your
Weapons this is the chance to find a better way
