Was it only yesterday  
When you made me cry?  
Was it only yesterday  
When you broke my heart?  
How could the sun keep on shining  
With my world torn apart

Was it only yesterday  
When you left me here?  
Was it only yesterday  
When you held my hand?  
How could I ever live on?  
Help me understand

Someday, when all my tears have gone  
(Someday my life will see springtime)  
Everyday we've shared  
I'll gather them one by one  
(Someday my life will see springtime)  
String them together like a rosary  
That I pray every night in my reverie  
Until what once brought me heartache  
Brings comfort to me

Was it only yesterday  
When you made me smile?  
Was it only yesterday  
When you turned to go?  
How could I've seen this one coming?  
How was I to know?

Was it only yesterday  
When my life made sense?  
Was it only yesterday  
I belonged to you?  
How do I figure this out  
When I haven't got a clue?
