We're famous, contagious
We make outrageous claims
Public enemy, the royal family
Game over, pink champagne

Let there be no doubt about it
(You are dancing in my Xfire)
Let there be no doubt about it

The possibilities are endless
I can do most anything
And the impossibilities are beginning less
And meaningless

There will be no doubt about it
(You are dancing in my Xfire)
There will be no doubt about it

There was this feeling I had
(Like you thought in the other world)
I was your destination

You raise me
I will amaze thy
Radio plays me
(You don't faze me)

I got no sympathy
If you're not into me
Then you're the enemy
(Don't shoot me)

There will be no doubt about it
(You are dancing in my Xfire)
There will be no doubt about it

(You are dancing in my Xfire)

There will be no doubt about it
There will be no doubt about it
Let there be no doubt about it
Let there be no doubt about it
