How much can I sacrifice
To explore your feelings
How can I expose myself
When you're not around

Sometimes I feel
There's a better way out
There's a second wind following

CHORUS

Give it up give it up
Cause the world won't stop
I'm alive I'm alive and I wake you up
It's my little secret
And all you need to know
Live it up live it up
Cause the world won't stop
I'm alive I'm alive and I wake you up now
With my little secret

Am I like a butterfly
Dying if you touch me
Am I just a blind voyeur
Crawling on your soul

Sometimes it's hard
I ain't losing myself
I'm strong inside wild at heart

CHORUS

Give it

It's my little secret
It's my little hope and
It's my little world
It's my little light
It's my little truth
It's my turn

CHORUS
