Welcome to my world
the modern supergirl
I am here to do
as I want

In reality
I'm virginity
You invented my
anxiety
CHORUS
I'm here to leave you again
and I won't stay for a while
I am mistaken again
cause you don't appreciate
how sacred I am
Unreveal my new world
make me up a glamour girl
I will keep the strain
until you're gone again

I'm not having fun though life has just begun
It's just another game
to overcome

CHORUS
I'm here to leave you againÂ...
I'm here to leave you againÂ...

Who is the one
to distort my image of my self
Where is the one
to introduce me to myself

CHORUS
I'm here to leave you againÂ...
I'm here to leave you againÂ...
