I am just the sea fog drifting by  
I am just a deep blue ocean wave  
I will stroke the bear at wintertime  
Hibernating calmly in the cave

Chorus

Cause I walk this world with you  
But only for a moment  
And I dream this dream with you  
But only for a while  
I have looked into your eyes  
Don't try to trap the water  
Kiss the pleasure as it flies  
That's what forever is

I will browse the naked stones and hills  
Shape the graceful mountaintops some day  
Kiss a holy Muslim in Dubai  
Join him at his early morning pray

Chorus Repeat

Out of the blue

I'm just passing by  
Please don't ask me why  
Like a fleeting dream  
Or a baby's dream  
Or a baby's scream

Chorus Repeat

Out of the blue
