First day I really felt like spring
I said I didn't want to see you again
Your birthday was the night before
I had a terrible time and when I walked through my
front door, I saw a face in the mirror hanging on the
wall
She said "Don't you ever torture me like that anymore!"
She's a witch! You where gonna marry that girl!
She's probably been around for a thousand years
I'll never think of money if I fall in love again, so help
me!?

Remember that day at the construction site?
It was a Sunday so we started up a caterpillar truck
That tractor wouldn't stop; we couldn't shut the thing
off
Then the sheriff pulled up, out in the parking lot
I was supposed to hang around and get some work
done
But you sold me on some twisted idea of fun
She's a witch! You where gonna marry that girl!
She's probably been around for a thousand years
I'll never think of money when I fall in love again, so
help me!?

She's a witch! You where gonna marry that girl!
She's probably been around for a thousand years
I'll never think of money if I fall in love again
She's a witch! You where gonna marry that girl!
She's probably been around for a thousand years
I'll never think of money if I fall in love again, so help
me!?
