

Colorblind James Experience "Let's Go Back"

Visit "[Let's Go Back](#)" on MotoLyrics.com

Thought I saw a familiar face, it stopped me in my tracks
It made me think of a far of place, come on let's go back
Come on let's go back (You know you can't go back),
come on let's go back
It made me think of a far of place, come on let's go back
back
I remember by the church in the village
I remember by the school house on the ridge
I remember by the lake, by the river
I remember by the [?] thousand [?] iron bridge
Come on let's go back (You know you can't go back),
come on let's go back
Come on let's go back (You know you can't go back),
come on let's go back

I remember diving in the city with my father
I remember his old neighbourhood
I remember going to the cabin in the Bristle Hills
I remember getting lost in the woods
Come on let's go back (You know you can't go back),
come on let's go back
Come on let's go back (You know you can't go back),
come on let's go back

I remember walking out my door in San Francisco
I remember listening to the Ocean roar
I remember going for a swim out on Bakers Beach
I remember barely getting back to the shore
Come on let's go back (You know you can't go back),
come on let's go back
Come on let's go back (You know you can't go back),
come on let's go back
Come on let's go back (You know you can't go back),
come on let's go back
Come on let's go back (You know you can't go back),
come on let's go back
