Lock him up, before he hurts somebody
Lock him up, before he scares somebody
[?] Heads or death???, you had better lock him up

As a child, he was underfed
That's why he wares a pork chop on his head
Lock him up; you had better lock him up

It's not save to walk the streets at times
You could be the victim of a terrible crime
[?] Writing hell, those scuba flippers are we broke in
two???
[?] The women's house align???
Lock him up; you had better lock him up

Was he the kind that you would like to meet?
On a dock, a deserted street
Lock him up; you had better lock him up

Don't look now but you might see the day when
somebody will point at you and say
"Lock him up, before he hurts somebody
Lock him up, before he scares somebody
[?] Heads or death???, you had better lock him up
Lock him up, lock him up
[?] Heads or death???, you had better lock him up
You had better lock him up
You had better lock him"
