

Colour Of Fire "9 Volter"

Visit "[9 Volter](#)" on MotoLyrics.com

There was a quake and the road cracked.
I felt the dark hit the day.
Split on the right of an angle,
Your blood is all i can taste...
Cut her get her one more time!
Cut her get her one more time!
I've seen the colour of fire,
I feel the colour of fire
There's a fire within me, there's a fire within me
There's a fire within me, there's a fire within me
All that we hear is destruction,
All that we feel is decay.
You always stammer the punch line,
But we just laugh all the same.
Cut her get her one more time!
Cut her get her one more time!
I've seen the colour of fire, I feel the colour of fire
There's a fire within me, there's a fire within me
There's a fire within me, there's a fire within me
Inside I feel a disaster,
Although it's still being planned.
We're eager to see it happen,
Just wanna play a little part.
