I'm playing the game with earthquakes around me  
Shaking my novice heart  
The pieces have have fallen, we've all forgotten  
Where we're supposed to start

Well, you've got the guns and I've got the money  
Maybe we should make a stand  
We'll use the confusion, break all the rules  
And win it with a losing hand

What I found was painfully enlightening  
Like a shot, right between my eyes  
Cos it hurts trying to do the right thing  
When the monsters are all on your side

So I'm dancing on ashes, drinking and giddy  
High as a silver swan  
You got the guts and I got the glory  
How could anything go wrong

Well one day you left me lost in the rubble  
Tapping out an S.O.S.

The higher you drift, the swifter you crumble  
Crushed by your own success

Now what I found was painfully enlightening  
Like a shot right between my eyes  
Cos it hurts just trying to do the right thing  
When the monsters are all on your side

Yeah yeah yeah yeah

Could you ease this hunger  
Why do I even wonder

Still alive the quiet morning after  
The night, the night I should have died  
And I can't believe I've got my absolution  
Only to find I slept through half my life

So I'd like to thank you for your kindness

When you bled and severed all our ties  
Now my friends drag me from the ashes  
Of the monsters on my side  
On my side
