Can you hear me?  
Crawling from so far away  
A late seduction  
An early AM fade to gray  
Is what remains

Surrender  
To the flow  
The undertow of you

Fall and I WILL  
find you in the atmosphere  
You're holding on so tight  
But you can't let go  
Love and sadness  
Turning into something real  
Holding on so tight  
But you can't let go

Whoaaaa Ohhh, whoa oh  
Whoaaaa Ohhh, whoa oh

Is it for real?

And I've decided  
The time is right to lose it all.

The wake up call (the wake up call)

Surrender  
To the flow  
The undertow of you

Falling  
I will find you in the atmosphere  
You're holding on so tight  
But you can't let go  
Love and sadness  
Turning into something real  
Holding on so tight  
But you can't let go

Whoaaaa Ohhh, whoa oh  
Whoaaaa Ohhh, whoa oh

Is it for real?

Falling  
I will find you in the atmosphere  
You're holding on so tight  
But you can't let go  
Love and sadness  
Turning into something real  
Holding on so tight  
But you can't let go

Oh oh you never know  
Oh oh you never know  
Oh oh you never know

Oh oh you never know  
Oh oh you never know  
Oh oh you never know...
