Is it because I'm beside myself with love
That I can say these things to you honey?
Is it because I'm beside myself with guilt
That I can say these things to you honey?

You and me will never be fine
You know I never even tried to smile

Is it because the life beyond the heart
Was taken out for good Al Sharp he got the money
All because the power ranger robots in the skies
Have called a war to you honey

You and me will never be fine
You know I never even tried to smile
To you honey

O! Al Sharp he laughs in the face of dark
Al Sharp he laughs in the face of dark
He tried the honey, he tried the money
He's a liar and a cheater and he falls on the [**]

Thieving on your mind, thieving on your mind
AAAAAaaaaaaah!
You and me will never be fine
You know I never even tried to smile for you

(You and your mind will never be fine)
