A candle in the darkness of the night  
She picks it up and holds it tight  
Her face, beautiful as the sky  
I can see it in the flames  
I wonder how she looks in daylight

She asks me if I love her  
I want to speak but there's no answer  
The wind, it makes the fire fade away  
Her shade, leaving me as well  
The question remains forever

I have no strength left to carry on without you  
I have no strength left to live my life without you

All I know is that I need you beside me  
Beside me as I stand trial  
Trial for the pain I caused for so long

Your image won't get out of my head  
Your smell won't get out of my bed  
My life will never be the same again  
My life will be your life too

I have no strength left to carry on without you  
I have no strength left to live my life without you

All I know is that I need you beside me  
Beside me as I stand trial  
Trial for the pain I caused for so long  
So many times

My love is like a flame in the night  
Flames in the night
