I will love you everyday.....  
We have a good thing, and you know it's true  
No matter what happens, I'll be there for you

Ima do whatever.. if it takes, my love  
Forget about the past and be your only one  
Tell me, if you're ready and you want this too  
Cuz im gonna make you forget about her

Ima do whatever..if it takes, my love  
Forget about the past and be your only one  
There's only one thing that I know I gotta do  
Im gonna make you forget about her

When I met you.. you was cold as ice  
Doing whatever just to catch your vibe  
But I can see your mind was somewhere else  
Or maybe thinking of somebody else

I know.. that maybe she was all your world  
And maybe, you would never trust another girl  
I told you once, and i'm sayin it again  
Im gonna make you forget about her

Ima do whatever..if it takes, my love  
Forget about the past and be your only one  
Tell me, if you're ready and you want this too  
Cuz im gonna make you forget about her

Ima do whatever..it takes, my love  
Forget about the past and be your only one  
There's only one thing that I know I gotta do  
Im gonna make you forget about her

Forget about those nights when she put out up in the  
cold  
The way she never respected the things you've given to  
her just let her go forget about the way she broke your  
heart and told you lies  
She had a good thing. she couldn't realize

I will love you everyday (everyday)  
Make all your pain just go away  
We have a good thing and you know it's true  
No matter what happens i'll be there for you

I will love you everyday ( everyday)  
Make all your pain just go away  
We have a good thing and you know it's true  
No matter what happens i'll be there for you

Ima do whatever.. if it takes, my love  
Forget about the past and be your only one  
Tell me, if you're ready and you want this too  
Cuz im gonna make you forget about her

Ima do whatever..if it takes, my love  
Forget about the past and be your only one  
There's only one thing that I know I'm gonna do  
Im gonna make you forget about her
