Worldwide mutilation  
The purpose of my creation  
Global domination  
The answer to my frustration

Can't tell right from wrong  
I'm killing evreyone I see  
Anarchy should not be long  
The power belongs to me

Useless invigoration  
The power of a nation  
Human condemnation  
Prepare your extermination

Can't tell right from wrong  
I'm killing everyone I see  
Anarchy should not be long  
The power belongs to me

I'm your god from Hell  
I'll put you under my spell  
I'm your god from Hell  
I'm mad as the story I tell

Vulnerable predestination  
The art of violation  
Virtual mystification  
Denial of the situation

Can't tell right from wrong  
I'm killing everyone I see  
Anarchy should not be long  
The power belongs to me
